

Nether Kellet Primary School

POLICY FOR THE DISPOSAL AND WRITE OFF OF ASSETS

INTRODUCTION

The purpose of this policy is to provide protocols for the disposal of school assets. This policy will help to ensure that equipment is properly accounted for prior to disposal and that the disposal is by appropriate method, minimising any risk to the school and Lancashire County Council. 'Assets' applies to the terms 'asset(s)', 'item(s)', 'equipment', throughout this policy and refers to any item listed on the school inventory.

Non-disposal of obsolete equipment not only takes up space, but potentially incurs on-going maintenance costs. The school should therefore dispose of such equipment in line with the processes set out in this policy. Consideration has been given to identifying the risk and the areas most susceptible to fraud. This policy is designed to minimise fraud and misappropriation.

SCHOOL INVENTORIES

The school must maintain an inventory of permanent stock. The inventory will assist in the identification of assets which require disposal. Within the inventory, equipment should be documented with details to clearly identify the item in question and its location. If items are scheduled for disposal, the disposal method and authorisation is to be documented (*see disposal procedures*). This may mean expanding and updating the inventory records where necessary to reflect the additional information required. If it would not be appropriate to reflect the information in the existing inventory, a separate but linked record should be maintained instead. Particular attention should be paid to documenting attractive/ portable/ expensive items such as cameras, videos/ DVD/ CD players, computer equipment, HiFi / musical equipment, televisions, electric kitchen equipment etc. These should also carry a security mark and be identifiable through make & model number and serial number. These references should also be recorded within the inventory. It is very important that schools maintain up to date and appropriately detailed inventory records.

REASONS FOR DISPOSAL

Items can be available for disposal because they are:

Not capable of running required operational software systems or being upgraded to do so

No longer required, due to changed procedures, functions or usage patterns
No longer complying with occupational health and safety standards

Beyond repair but able to be sold for scrap

RESPONSIBILITIES OF THE HEADTEACHER/ DESIGNATED OFFICER

- The Headteacher/ Designated Officer must be aware that:
- They are accountable for all decisions they take in the disposal process
- Accounting and control procedures should be observed and all decisions documented and reported to the governing body.

OPTIONS FOR THE DISPOSAL OF ASSETS

Assets identified for disposal may be dispensed using the procedures outlined below. Acceptable methods of disposal are:

Transfer of the assets to a new school site.

Sale of assets

Donation of assets to a community service organisation or school

Destroy assets

Recycle assets

Choice of the most appropriate disposal option will normally be influenced by the age and functionality of the equipment for disposal and by market value.

TRANSFER OF ASSETS TO NEW SCHOOL SITE

Prior to the transfer of existing assets to a new school site, a check should be made to ensure that all such items are included in the school inventory. If this is found not to be the case, the inventory should be updated. If many assets are to transfer to the new site, an appropriately detailed list of such items could be compiled for ease of use. However, the disposal column of the inventory should also be appropriately updated to show that the items in question have been transferred. (See paragraph 13) The Council's Capital and Admissions Team can assist to oversee the physical move of the assets. The school should create a new inventory for its new site into which the transferred items will be appropriately recorded. It is also important that the school continues to add any newly purchased items to the new inventory. The old inventory and the new inventory should be held together for reference purposes (see paragraph 16).

SALE OF ASSETS

The sale of assets involves assigning a minimum price to the item(s) and publicising the items(s) availability for sale and setting a closing date for receipt of bids. This may range from an advertisement on the Council's Intranet Site, a newsletter advertisement or a general round-robin email notice. Where appropriate, consideration should also be given to selling assets back to the original supplier. Assets should be advertised as "sold as seen" with no guarantee of lifespan given. It is essential to adopt documented procedures, which are clear and transparent and minimise the risk of allegations of unfairness in any process of distribution. The school will follow the Council's Code of Conduct for School-Based Employees, which lays down guidelines on how schools and individual members of staff should avoid any impropriety or any suspicion of improper conduct. The school is to be clear and transparent in determining the appropriate minimum prices of items. The minimum price of items should at least cover the costs connected to the disposal, for example those related to clearing data from a PC or laptop etc. For all sales the school will adhere to the Council's Financial Procedure Rules which state that official receipts should be issued (and copies retained) for any payments received in this regard. In addition, appropriate documentary evidence needs to be retained to allow all such income to be accounted for to the point of banking (SAP cash receipting reports, paying -in slips). All such income is due to the main delegated budget and should not be paid into the school voluntary fund.

All items should be in a good and safe condition. If you are unsure if goods are safe then you should not sell them, or offer them for sale, until you have had them checked by an expert. Electrical goods should only be sold if the Portable

Appliance Test is in date. Prospective buyers should be given adequate opportunity to inspect the goods prior to collection and on collection, the inventory should be updated. The item may, on receipt of an offer, be sold to the first person to make such an offer.

If when originally purchased the asset was subject to VAT then VAT at the appropriate rate in force, must be charged on the agreed sale price, and schools should indicate this as taxable income when paid into the main school budget.

DONATIONS TO EXTERNAL ORGANISATIONS INCLUDING SCHOOLS

The school may authorise the donation of equipment to another organisation or school, updating the inventory to reflect this. In the main and with reference to the Code of Conduct, such donations should be to organisations or schools and not individuals.

DESTROY OR RECYCLE ASSETS

Items with no market value and no use to any other organisation or person may be destroyed in an appropriate and safe manner. Items must be destroyed or recycled in accordance with legislation (for example there are certain legislative requirements for the disposal of batteries, recycling of electrical and white goods etc). Advice on how to destroy or recycle assets in accordance with legislation can be obtained from Environmental Services Tel 520 5503. Environmental Services provide services for recycling and refuse collection.

The disposal must be authorised by the Headteacher/ Designated Officer/ Governing Body and the school inventory must be updated.

DISPOSAL OF PCs AND LAPTOPS

It is essential to ensure that any computer and laptop hard drive/ memory/ data store is professionally cleared of such data prior to disposal. This is to ensure that the school adheres to data protection legislation and minimises the risk that sensitive information is exposed to unauthorised individuals. The Council has a contract with a supplier in this regard which schools are advised to follow. The supplier charge a fee per item cleared and will provide certificates to the school, confirming that such items have been cleared. Certificates should be retained for reference purposes. The Council ICT Service can arrange for computers and laptops to be destroyed and recycled. There will be a fee for this service.

DONATING OR SELLING ITEMS TO STAFF

When offering items to staff, the school will follow the Council's Code of Conduct for School-Based Employees, which lays down guidelines on how schools and individual members of staff should avoid any impropriety or any suspicion of improper conduct. In this regard, if schools receive any such offers, they need to consider carefully what subsequent action may be appropriate. For example, items should be appropriately advertised within school to allow all staff the opportunity to see what may be available. In addition, consideration could be given to allocating items like computer equipment via a lottery if there are more interested parties than items available. As well as updating this inventory to reflect the donation/sale, it is essential to retain appropriate documentation of the disposal process which are clear and transparent and minimise the risk of allegations of unfairness in any process of distribution. Such documentation should be retained in case of query/challenge later. Staff should also understand that computer/ laptop hard drives will be cleared of all data prior to any handover.

UPDATING SCHOOL INVENTORY RECORDS

Asset disposal decisions, and the reasons for taking them, should be documented.

Not only does this assist in audit and other examinations, but it also highlights successes and problems for future reference.

The following information should be recorded against all items in the school inventory: Chosen option of disposal including the reason/ rationale The date the equipment is sold, transferred, donated, destroyed or recycled For equipment which is to be sold, transferred or donated the following information should also be recorded: Where the equipment went and who handed it over (with signature) and who received it (with signature) For equipment to be recycled/ destroyed, the following information should also be recorded: Who disposed of it (with signature) and counter-signature of a second member of staff as witness. If a large number of items are intended for a single destination, for convenience these could be grouped together for sign-off.

HEALTH AND SAFETY NOTICE

For all equipment ensure the recipient signs the following health and safety notice:-

The school will not be liable for any Health and Safety issues surrounding the use of the equipment. It is the recipient's responsibility to ensure that the equipment is suitable and safe for its intended use, installed correctly, and that it can be used without risk to health or safety. It is the recipient's

responsibility to obtain any instruction for and advice on the installation and use of the equipment and to carry out or to have competent persons carry out all necessary checks appropriate to the equipment. The school will not be liable for any loss, damage, or injury arising out of the installation or use of the equipment, however caused.

CHECKLIST FOR DISPOSAL OF ASSETS:

1. Identify assets for disposal.
2. Select the best disposal option
3. Seek authorisation from Headteacher/ Designated Officer/ Governing Body for disposal
4. Remove asset strips from all items
5. Remove the items from any outstanding maintenance arrangements and cancel contract if appropriate
6. Oversee the disposal including the collection of any income and issuing of receipts
7. Retain appropriate records to show that procedures have been followed
8. Update the school inventory records and asset logs.

Additional requirements for items identified for sale or donation:

9. Ensure items are in a good and safe condition
10. Ensure Portable Appliance Tests are in date for all electrical appliances
11. Issue the health and safety notice to recipients (in writing) and request a signature from the recipient.
12. Issue original documentation to recipients such as manufacturer's instructions and safety notices and where applicable service history.

RETENTION OF RECORDS

Inventory/ disposal/ sale records are to be retained in accordance with the recommendations in the Records Management Society Retention Guidelines for Schools.

COMPLIANCE

It is essential to retain appropriate documentary evidence to demonstrate that the school has followed these procedures. Such evidence may be inspected from time to time to ensure that the school is complying with the requirements of these procedures.

DISPOSAL OF FIXED ASSETS

This policy does not include the disposal of fixed assets e.g. fitted furniture, sinks, doors boilers etc. Please contact the Capital and Admissions Team for advice and assistance for the disposal of any fixed asset.
